

## AMPLITUDE SHIFT KEYING MODULATION & DEMODULATION TRAINER

**ProductCode: GKE422**

### **Objective:**

- To study the ASK Modulations Demodulation
- On-board Carrier Generator
- On board Modulating Function (Signal) Generator with variable amplitude & frequency

### **Technical Specifications**

- To study the ASK Modulation & Demodulation
- On-board Carrier Generator
- On-board Modulating Function (Signal) Generator with variable amplitude & frequency
- On-board ASK Modulator
- On-board ASK Demodulator
- On-board programmable word generator: cyclic 8-bit word
- DC Supply: Builtin IC regulated powersupplies
