

## IV-E594B To Determine The Wavelength Of Diode Laser Using Single Slit Using Optical Breadboard

### Scope of Learning:

- TO DETERMINE THE WAVELENGTH OF DIODE LASER USING SINGLE SLIT USING OPTICAL BREADBOARD

### What We Need:

- Optical Bread Board
- Kinematic Laser Mount
- Diode Laser With Power Supply
- Optical Screen With Mount
- Optical Power Meter
- Adjustable Micrometer Slit Drum Type With Readout

### Salient Features:

- In-Built DC Regulated Power Supply in Diode Laser Power Supply 230V, 50Hz for Diode Laser.
- Instruction Manual.

### Optional Accessories:

- No
